

Leaders in Private Labeling
& Specialty Wipes Products

SPECIALTY WIPES

PRIVATE LABELING

Sales & Distribution | Customer Service | Graphic Design | Manufacturing | Quality

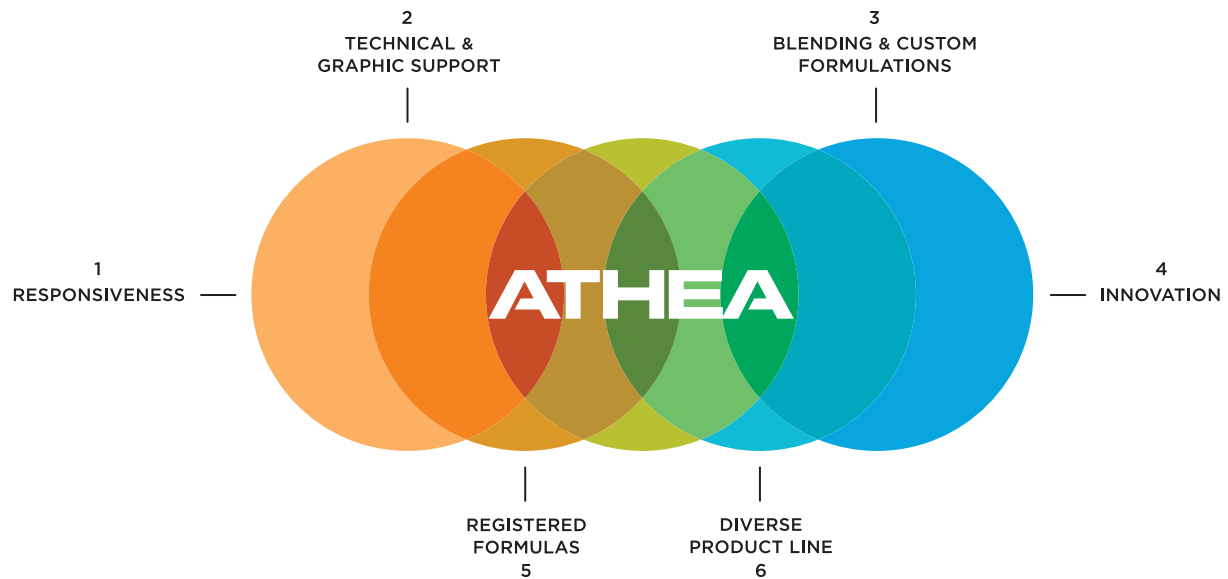

Athea Packaging offers in-house research and development for custom formulations including raw material sourcing, analysis and testing.

WHO WE ARE & HOW WE HELP YOU SUCCEED

When is good good enough? At Athea Packaging, never. That's because we know you want to get to market faster. Remain flexible for your customers and theirs. Innovate. In this business, only one qualifying word makes a difference: excellence. • And when we strive for excellence, you win. You win when we earn your trust through continuous improvement, driven by the integrity, teamwork and innovation of each and every Athea employee. • You win when we offer an impressive range of capabilities to make your product dreams realities. You win with our established reputation of high quality to protect your brand, and flexible production scheduling and responsive customer service so you can get ahead and stay ahead. • Athea Packaging exists to remain the most respected leader in private labeling and specialty wipes products. Our commitment to leadership? Welcome to your edge.

WHAT WE DO & HOW WE ARE DIFFERENT

From our diverse product line to in-house formulation capabilities, Athea Packaging is more than your standard contract manufacturer. Six capabilities set us apart: responsive order fulfillment, technical and graphic support, blending and custom formulations, innovation, regulated formulas and a diverse product line.

1 - RESPONSIVENESS

THERE WHEN YOU NEED US

We support product development with dedicated resources to deliver on time, anywhere. We anticipate and meet your needs with the highest quality service in a timely and cost effective manner so your orders are fulfilled quickly.

2 - TECHNICAL & GRAPHIC SUPPORT

HELP WITH THE DETAILS

Whether you need assistance with product certification or graphic support, we offer advanced technical resources to guide you through the label design process at all stages of your product's development.

3 - BLENDING & CUSTOM FORMULATIONS

YOUR JUICE OR OURS?

Provide us with your liquid solution or we can develop a formula for you. We offer in-house research and development, complete analysis, testing and raw material sourcing, on-site chemists, conceptual product formulas and duplication of current formulas. We currently produce over 400 active formulations and have developed over 2,000.

4 - INNOVATION

NEW AND DIFFERENT

Citrus-based cleaners? Bacterial-based cleaners? Large roll wipes? Not every contract manufacturer can handle such challenges. Athea can. We deliver innovative, quality products cost effectively using a broad range of manufacturing processes and capabilities, from concept to product completion.

Our facilities are EPA and FDA regulated, offering a variety of registered formulas for wet wipe applications.

You can count on brand quality and product performance. Your wipes are inspected, microbiologically tested, weighed, seal tested and more.

5 - REGISTERED FORMULAS

LET US HANDLE REGISTRATIONS

Because Athea is an Environmental Protection Agency and U.S. Food and Drug Administration-regulated facility, we can submit and track paperwork for you, saving you countless hours. We offer disinfecting wipes, hand sanitizing wipes, sunscreen wipes & insect repellent wipes.

6 - DIVERSE PRODUCT LINE

ANY SIZE, ANY SHAPE

Athea offers peel & reseal pouches, canisters, tubs, large count rolls in bags, and side seal zipper bags. Market applications include health and beauty wipes, hand sanitizers, hard surface care, automotive, & patient care.

WE SERVE
YOUR INDUSTRY

Offering you complete marketing, technical and graphics support services, Athea is fully equipped to customize a wipes program that meets your specifications, from commercial and retail applications such as stainless steel care and graffiti removal; to household products like carpet spot removal and countertop cleaning wipes; to patient bathing wipes and disinfectants for medical purposes.
