

INNOVATORS  
IN HYGIENE

# Pure hygiene innovation. It defines what we do.

Vectair Systems are a leading technological innovator, manufacturer and supplier of hygiene products in a number of sectors worldwide. We deliver sanitary solutions to over 120 countries around the world.

With North American Headquarters in Memphis, USA and EMEA & ASIA-PACIFIC head offices in Hampshire, United Kingdom, along with manufacturing facilities based strategically around the world, we truly have a global reach.

As a technological leader in the hygiene world, Vectair Systems always look to new technology to create the greenest, most sustainable products on the market.

We make use of high class facilities across the globe ensuring we are at the forefront of technology; Piezo technology, multi-phasing fragrance technology, OEM services, antimicrobial technology, ceramic cartridge technology, versatile skin care and surface care dispensers and passive aircare systems are just some of the pioneering projects that we are helping bring to the hygiene industry to make your lives simpler and safer whilst also helping to create a more stylish environment.

Vibe is a registered trademark of Vectair Systems, Ltd. © 2014 - EM&OE

**Metered aircare hasn't changed in 40  
years...Until now.**

**Vibe®, the new air care dispenser from Vectair Systems, is redefining the world of air care. In fact, you might never look at an air care system in the same way again.**

The patented piezo technology that goes into Vibe® creates a far more efficient, more environmentally friendly and less expensive air treatment system compared to conventional aerosols and passive dispensers.

Vibe® is a piezo technology based product giving real green and efficiency benefits whilst also providing great reason for you to change from your existing system with excellent cost in use benefits.

**Vibe® Air care Dispenser with Piezo Technology**

Metered air care hasn't changed in 40 years...Until now.

**VECTAIR**  
SYSTEMS

**Vibe® is a technology breakthrough in the aircare world. Patented and patent pending technology makes Vibe® completely unique.**

- The piezo technology allows for consistent fragrance from start to finish. Unlike heavier aerosol droplets which fall within minutes, the piezo micro particles are much smaller and lighter, remaining airborne for many hours.
- Piezo technology - In simple terms, piezo technology is where mechanical pressure is generated by piezo elements that change shape as electrical signals are passed through them.
- In an aircare dispenser, this mechanical piezo pressure is used to propel fragrance and odour neutralising particles out of the dispenser and into the atmosphere.
- In more scientific terms, the technology used in Vibe® is the process of atomising (finely dispersing) fluid through a micro perforated piezoelectric membrane oscillating at high resonant frequency.

## **Vibe® has green credentials like no other aircare system.**

- No propellants - Just fragrance and odor neutralizer, so the compound remains unaltered.
- Environmentally safe - Formulation is much lower in VOCs than current aerosols.
- Ultra low concentrations. Highly effective at low concentrations. Fragrance molecules are produced at low pressure with no heat.
- Less packaging, less waste. Longer lasting refills mean less packaging to throw away, and fewer deliveries.
- Innovative refills. Cartridges are smaller, lighter and less hazardous than aerosol cans.
- No saturation. Does not saturate a space with heavy concentrations of scent.

**Vibe® Aircare Dispenser with Piezo Technology**

Get the Green Vibe®.

**Vibe® has a lower cost in use than comparable fragrance systems; not only saving you money on the actual product, but also on shipping, storage and inventory.**

- One Vibe® cartridge can replace up to three high volume metered aerosol cans OR up to six passive fragrance refills.
- One Vibe® unit covers up to 18,000ft<sup>3</sup>. To get this same effect, you would need three aerosol units each covering 6,000ft<sup>3</sup>.
- In certain locations, one Vibe® cartridge pack will fulfil your aircare needs for up to one whole year. \* 1 pack = 4 cartridges
- With refills that last much longer, there is no need to service as often, and you can rest assured your aircare needs are being taken care of.

**VECTAIR**  
SYSTEMS

**One Vibe® unit covers up to 18,000ft<sup>3</sup>.**

**To get this same effect, you would need three aerosol units each covering 6,000ft<sup>3</sup>.**

- Longer lasting. Fragrance refill cartridge that lasts up to 90 days (compared to 30 days for most standard aircare systems).
- Covers a large surface area. Small, light particles that carry further.
- Silent operation. Almost silent, continuous operation, so you needn't even know it was there.
- Energy efficient. Fragrance molecules are produced at low pressure with no heat.
- All packaging is recyclable.
- Micro-sized particles. Remain airborne for many hours without falling and leaving surface deposits.

## **Vectair V-Screen® Urinal Screens**

For free flowing and fragranced urinals.

The Vectair automatic sensor faucets are easy to install and are unlike other sensor faucets that have different model faucets for battery, plug-in, and hard wire installations. Vectair Systems have combined the technology of three, into one simple faucet.

Sophisticated sensor technology, elegant design, easy installation and simple service...no wonder it's the smartest choice for the ultimate touch less restroom.

- Water conserving.
- Up to three year battery life based 3,000 hand washes per month.
- Sensor is not affected by reflections or abnormal lighting.
- Self-adapting sensors range.
- ADA Compliant.
- Power supply options.
- Hands-free sanitary operation.
- Vandal resistant aerator.
- Automatic 30 second time out.
- Low battery indicator light.

**Product Codes:**

**ZU0004:** E-Z Sensor Faucet w/4" Plate.

**ZU0008:** E-Z Sensor Faucet w/8" Plate.

**Vectair Auto Control™ Faucet**

Germ free. Touch less Control Faucet.

The Vectair E-Z Flush™ Control is the most installer friendly flush valve retrofit kit on the market today.

Not only does Vectair E-Z Flush™ Control allow you the fastest and easiest changeover, but it gives you the tools, batteries and adaptors to start and complete the job.

- Actuator is not affected by harsh water or chloramines.
- Patented design for reducing maintenance.
- User friendly operation.
- Elimination of odors caused by fixtures that aren't flushed.
- Replace batteries without the need to turn off the water.
- Replaceable angled, tempered glass lens.
- Manual override button.

**Product Codes:**

**ZU0001:** EZ Flush™ Control for Sloan or Zurn.

**ZU0009:** EZ Sensor™ Flush Control-for Coyne Delaney.

**Vectair E-Z Flush™ Control**

Sensor operated, hands free flushing. Converting your manual flush valve has never been easier.

**Vectair Sanitex™ MVP combines a next generation dispenser design with luxurious soaps and sanitizers, promoting maximum hygiene and leaving hands clean.**

**Every part of our system is rigorously tested and monitored for only the best performance. Incorporated into this range is our professional surface care system, designed and developed to leave any hard surface safe for use.**

- Manual or 'touch free' automatic dispenser options available.
- One pump can endure thousands of operations.
- Optional color inserts available to match décor (white / translucent / bright chrome).
- Promotes maximum hygiene incorporating EPA registered Biomaster® (silver ions) protection which reduces non-pathogenic micro organism growth, preventing product degradation.
- Robust & reliable dispensers that are simple to operate and service.
- Unique lock out design on dispenser secures refill business.
- Durable, sealed cartridges ensure optimum hygiene at all times.
- Delivering the optimum amount of soap, minimizing waste and saving you money.

**MVPF5000:** Wall Bracket

**Vectair Femcare™ MVP Feminine Sanitary Waste Disposal System**

Stylish. Subtle. Safe.

**The first feminine hygiene waste liner to incorporate Biomaster® silver ion protection and odor eliminating technology. Biomaster® is an EPA and FDA approved antimicrobial additive.**

**The antimicrobial treated liner can be used in most sanitary disposal systems, including the Vectair Femcare™ MVP Sanitary Disposal System.**

- **Cost effective** - Removes requirement to buy a plastic liner and separate secondary product.
- **Biomaster®** provides around the clock protection against microbial build up, giving safe, effective and permanent antimicrobial protection to the liner against degradation.
- **Odor eliminating technology** inside the liner ensures bad smells are eradicated while also providing a pleasant fragrance.
- **Labor and time saving** - eliminates on site labor cost and valuable time to manually add an odor reducing technology.

**Pack Size:**

250 liners per case  
(10 rolls of 25 liners)

**Max. capacity:**

23 Liters (universal fit)

**Color:**

White (high opacity)

**Product Code:**

**SBFEMAMLV2**

250 x Femcare™  
Antimicrobial Liners

**Vectair Femcare™ Antimicrobial Treated Liners  
For Feminine Sanitary Waste Disposal Systems**

Stylish. Subtle. Safe.

**Vectair Babyminder™ Horizontal & Vertical Baby Changing Units provide parents and caregivers with a safe, secure and convenient surface to change a child whilst away from the home.**

- All Vectair Babyminder™ tables are independently tested and approved to applicable global safety standards (ASTM, ADA\* & EN).
- Available in both horizontal and vertical models in white or light granite material.
- Made from high quality micro textured L.D.P.E. and wall mounted for maximum safety.
- Gas strut mechanism provides opening and closing assistance for easy use.
- Built in dispenser and liner storage draw.
- Compact, ultra slim profile compliments any baby changing facility.

**Vectair Babyminder™ Horizontal & Vertical Baby Changing Stations**

Safe & secure. For a cleaner, changing world.

**Installing a Vectair Babyminder™ Child Safety Seat provides parents and caregivers with a safe, convenient and hygienic facility in away from home locations in which to restrain their toddler or infant whilst carrying out other important tasks.**

**Examples of areas for use are gym/swimming pool changing rooms, toilet cubicles, next to baby changing tables and in nursery's.**

- Safe and secure, convenient and hygienic. Vectair Babyminder™ Child Safety Seats are suitable seats in which to restrain a child.
- Compact and ultra slim profile.
- Heavy-duty integral molded hinges for strength and safety.
- Dual purpose, heavy duty hardware suitable for fixing to timber studs and solid wall installations.
- Restraining harness: Fully adjustable “no noose” safety harness with 3-part heavy duty nylon.

### **Vectair Babyminder™ Child Safety Seat**

---

Safe & secure. For a cleaner, changing world.

**All Vectair Babyminder™ tables are compliant in all U.S. states and Canada, comfortably meeting the required standard (ASTM F2285-04 Commercial use: Diaper changing tables).**
