

Post Consumer “Green” Program

Many of you, our valued customers, have requested that we “get in the game” when it comes to the “green movement”. Although we offer you many programs in 100% post-industrial content, which you support, we are now launching our newest effort - a post-consumer content bag with a star sealed, coreless roll program. It has taken us a little time and research to secure good sources of post-consumer materials*, but we have cleared those hurdles and we are proud to offer you the following sizes of PCR content can liners. These are in stock and ready to ship with our green label designation.

All of the products below contain a minimum of 20% post-consumer recycled material and 50% pre-consumer recycled material.

Coreless Rolls - True Mil

STOCK #	COLOR	GALLONS	DIMENSIONS	GAUGE	BAGS/CS	CS WT.	CS/PALLET
PCR242410	Random**	7-10	24X24	1.00	500-20x25	19.2	64
PCR243210	Random**	12-18	24X32	1.00	500-20x25	25.6	56
PCR303710	Random**	20-30	30X37	1.00	200-10x20	14.8	88
PCR334012	Random**	33	33X40	1.20	100-10x10	10.6	96
PCR334016	Random**	33	33X40	1.60	100-10x10	14.0	88
PCR404812	Random**	40-45	40X48	1.20	100-10x10	15.4	80

PCR385816	Random**	60	38X58	1.60	100-10x10	23.5	56

According to the United States Environmental Protection Agency Comprehensive Procurement Guidelines' RMAN's (Recovered Materials Advisory Notices), trash can liners must contain between 10%-100% post-consumer content to be recommended as “green certified”.

According to Scientific Certification Systems (SCS), certified green recycled can liners must contain a minimum of 60% recycled material (20% post-consumer-40% pre-consumer).

*Any household or commercial product that has served its original intended use.

**Although the color designation on our can liners is “random”, the color you will see when you open each case will be a variation of gray-green. This color represents a process where no color concentrate has been added to put additional heavy metals into the contents of these can liners. We stay true to our mission of reduce, reuse, and recycle.
