Dust Control

Pro-Series® Classic® Dust Cloths

Efficient and Effective Dust Control

MDI's Pro-Series Classic Dust Cloths are specially designed to deliver the professional quality dust control needed to help maintain clean, healthy work environments. Dust is a major source for PBDEs (Polybrominated diphenyl ether). A 2010 study by the EPA estimates that 90% of PBDE exposure comes from house dust.¹

Avoid sprays and their associated costs by using Pro-Series Classic Dust Cloths. Treated with mineral oil,

they attract and retain small dust particles without leaving lint, residue or waxy buildup.

Our treated dust cloths are designed to be soft for delicate surfaces yet durable to withstand rugged dusting applications. They are available in a variety of sizes for hand dusting or dusting tools, and are individually folded and polybagged to keep them fresh and clean prior to use.

Yellow Treated Dust Cloths – polybagged in 50's			
CODE	SIZE	COUNT	FOLD
78404	13" X 17"	500 ct	1/4 fold
78409	17" x 24"	200 ct	1/6 fold
78403		500 ct	
79112	23" x 24"	200 ct	1/8 fold
79110		500 ct	
79119	23" x 40"	250 ct	gang fold

Other colors are available. Contact us for details and samples.
