

Pro-Series® Wipers

Introducing... Case Bundles

MDI announces a new approach to case packing by eliminating corrugated outer cartons for Pop-up boxes. We have upgraded to bundling in heavy duty, recyclable shrink-wrap as part of our sustainable business practices to reduce waste and conserve resources.

Additionally, new converting and packaging lines allow for improved one-at-a-time dispensing and therefore less waste. All of our best selling Pro-Series® Pop-up boxes are part of this exciting upgrade. This includes the new Super Rag® Complete line extension.

At MDI we are proudly called **The Wiper Specialists®**. Our investments and innovations are driven by a passion to deliver our customers leading-edge products and superior customer service.
