3-Mat System

1 Scraper

- Scrapes Heavy Debris
- Your first defense against mud, dirt, and snow
- Choose matting with a non-absorbent scraping surface, or open weave backing, to allow moisture to drain naturally

1

2 Scraper/Wiper

- Cleans & Absorbs Moisture
- The workhorse of the system
- Designed to remove and contain soil, waste particles and moisture at the entrance

2

3 Wiper

- Absorbs Moisture & Dries
- Removes remaining moisture, fine fragments and dust from footwear upon entrance to the interior of building

3

EXIT

Cambridge™ (outside) p. 4
Oxford™ Elite (middle) p. 4
Oxford™ (foreground) p. 4

THE REAL DIRT

Amount of dirt in a building that is tracked in on feet.

The estimated cost of removing a single pound of dirt from a modern building

\$600

The amount of dirt 1,000 people can track into a building in just 20 days?

24lbs

\$1 spent keeping soil out of a building will save \$10 in removing the soil once it's inside.

3
MAT SYSTEM

Entrance matting should cover 15 to 18 feet of an entrance, preventing 80-90% of dirt from coming into the facility.

Outdoor Matting

Dirt that is brought in on shoes can cause premature and visible wear and tear on expensive interior flooring — both hard surfaced and carpeted floors.

In addition, a lack of correct entry matting affects indoor air quality. An outdoor mat is there to knock off the big stuff and begin the dirt management process.

What to look for:

- Choose an aggressive mat with a surface designed and built for vigorous scraping.
- Quality outdoor mats can trap and hold as much as three pounds of dirt per square foot. Mats with this ability can actually reduce overall building cleaning costs
- Deep pile products hide dirt and prevent it from entering the building
- Consider choosing colors that efficiently conceal dirt, sand, salt, etc.

Fore-Runner™ p. 5

#170/171 Boardwalk™

SCRAPER/WIPER | HEAVY TRAFFIC

FEATURES

- Highly functional tile matting offers superior performance provided by the unique modular construction
- The closed construction of the 7/16" (#170) allows for easy maintenance and is ideal for shallow matwells
- The open construction of the 5/8" (#171) allows for efficient drainage and removal of dirt and moisture

Indoor Matting Solutions

Scraper/Wiper mats are often viewed as the best overall matting available. Ideally used to transition between rugged external matting and internal finishing mats, they scrape off light soils and absorb and retain water and moisture. Scraper/Wipers are often used for internal entryways – between external and internal doors, or as the first of two internal entry mats.

Wiper mats or “finishing” mats are best thought of as the final step in managing dirt and debris at the point of entry. The surface fibers pull off lingering dirt and dust, while absorbing and retaining water and wetness. Preventing the moisture from getting onto floors keeps them dry and safe. Wiper mats are also often used to support cleanliness throughout the building, such as outside of restrooms or kitchen and cafeteria entrances.

Boardwalk™ p. 7,
Grounds-Keeper™ (foreground) p. 13

#228 Marathon™ SCRAPER / WIPER | HEAVY TRAFFIC

- FEATURES**
- Heavy-duty needlepunch surface for outstanding scraping and water retention
 - Reinforced latex-coated pattern allows for increased dirt and moisture removal

Logo/Specialty Mats & Accessories

Adding a logo to commercial matting can be an effective tool for enhancing the appearance and professionalism of any business or institutional environment. Logo mats can be used as highly visible entrance mats, a centerpiece for a lobby or reception areas, or a way to build an organization's image wherever internal matting is utilized.

Crown Matting Technologies provides a number of options for customers looking to add a logo to their overall matting programs. From flocked mats and Graphic Inlays to HD Jet Print and Crown-Tred Printed Mats, Crown can best match your need with the most appropriate matting application.

In addition to logo mats, Crown offers an extensive line of specialty mats and accessories to meet even the most complex or unique matting challenges.

Cross-Over™ Graphic Inlay p. 19

Graphic Inlay

Used in heavy indoor traffic areas. Our heavy duty needle punch material with abrasive raised patterns (Marathon™, Oxford™ Elite and Cross-Over™) serves as the base material and our high definition digital ink print nylon design is secured into the mat to create your logo brand and/or statement. The backing is our ThermoFlex™ vinyl and we offer over 600 colors to create your logo. Maximum customized size is 11 ft 9 inches x 50 ft.

Ergonomic Mats

Ergonomic mats help ease leg, foot, and lower back fatigue and pain and can also assist in the areas of slip resistance, wet-area drainage, and worker safety.

Strong. Resilient. Safe.

Three critical matting features that can dramatically influence the success of your workforce and your business. Zedlan™ Foam was developed with these workplace imperatives in mind.

- Strong - Zedlan™ Foam outwears similar products by nearly 3-to-1
- Resilient - Zedlan™ Foam has three times the bounce of traditional ergonomic products
- Safe - combined with our exclusive slip resistant technology, Zedlan™ Foam offers superior traction compared to standard foam products

Zedlan™ Foam. Just one more way we support our customers by developing industry leading products that support their workforce.

Care and Maintenance

Use & Care Instructions – Entrance Matting

Regular maintenance of your mats is critical to extend mat life and appearance. It is recommended to develop a regular maintenance schedule. Frequency will depend on traffic and soil conditions.

INITIAL MAT USE

- 1| Within a few days of receipt, rolled mats should be unrolled and laid flat.
- 2| Normal shedding or “fuzzing” may occur with new carpet top mats. This will disappear after a few vacuumings.
- 3| Some rubber mats may have an oily or sticky film on them. This is a releasing agent that is inherent to molded mats, not a defect. Simply wash down with a mild detergent or degreaser to remove this film.
- 4| To store mats, roll them up and lay them in a dry area with moderate temperatures. Do not stand on end or crush.

PERIODIC INSPECTION

Periodic inspections are recommended on a regular basis to check for border tears. To repair a damaged border or area, glue the section together with cyanoacrylate ester type (super glue) adhesive.

CARPET MATS AND HDNP PRODUCTS

Entrance mats are used to capture dirt and debris before it can be tracked into a facility. However, mats must be cleaned regularly to extend their usefulness and appearance.

- 1| Vacuum daily
- 2| Hand wash or extract stains with a carpet spotter using a water-based carpet detergent or shampoo.
- 3| Periodically clean the mat with a carpet extractor using a water-based detergent or shampoo. Do not use solvent-based cleaners.
- 4| Excess water is removed by extracting or hanging the mat. Let the mat dry completely before allowing foot traffic to resume.

IMPORTANT ! Do not use rotary scrubbers or other mechanical cleaners or scrubbers to clean.

Do not use solvents, pH detergents, or alkalis directly on the mat or use the mat in areas where these are used.

How to Order

With a global distribution network, it’s easy to put the strength of our matting solutions to work for you. Visit www.CrownMats.com to find the Crown Matting Technologies distributor/rep nearest you. Or, simply call our customer service team at **800-MAT-LINE (628-5463)**. We welcome the opportunity to discuss our products, take your request for a sample, or answer any questions you may have.

Warranty

STANDARD LIMITED 1-YEAR WARRANTY POLICY

New products are warranted against defects in material and workmanship when maintained as instructed in the Use and Care Instructions included with each product. The obligation under this warranty is limited to the original user and to the replacement, repair, or pro-rated refund of said product. This warranty excludes the costs incurred for the installation of the carpet and/or mat. It remains the responsibility of the owner to carry out an inspection of the product prior to the installation.

This Warranty Is Not Applicable Under The Following Circumstances:

- 1| Improper use, application, installation or cleaning of the product
- 2| Normal wear
- 3| Use of this product for other than its intended purpose
- 4| Lack of proper maintenance as described in the Use and Care Instructions included with each product
- 5| Products that have been altered in any way

If a problem with a product develops during the warranty period, contact your authorized dealer.

Exceptions

Some products may have extended warranty periods. Please refer to the current catalog (available on our website) or pricelist for details.
