

# TOTAL SOLUTIONS<sup>®</sup>

## Cdiff<sup>™</sup> DISINFECTANT TABLETS

Kills C. diff in 4 Minutes!

# THE Cdiff™ ADVANTAGE

**WHAT IS IT?** Cdiff™ Disinfectant Tablets are the convenient and easy way to kill C. diff and many more organisms in 4 minutes. At 6.55 g per tablet it takes just 2 tablets per quart and 8 tablets per gallon to make a powerful disinfectant solution. A single bottle of 128 tablets will yield 64 quarts or 16 gallons of finished solution.

**HOW DOES IT WORK?** Cdiff™ Disinfectant Tablets are bleach free and utilize an active ingredient called sodium troclosene. Sodium troclosene is much more stable than sodium hypochlorite, and releases chlorine at a much slower rate. This means that Cdiff™ Disinfectant Tablets produce a solution that maintains disinfecting power for 7 days, in a sealed container and 24 hours in an open container, vs. bleach solutions that become inactive after a day. In solution, sodium troclosene has a pH of around 5.5, this mild pH means that Cdiff™ Disinfectant Tablets will be much less aggressive on surfaces, including floor finishes, than traditional bleach products which regularly have a pH of 11+. An added detergent also makes for efficient surface cleaning as well.

**THIS PRODUCT IS EFFECTIVE AGAINST:** C. diff • Staphylococcus aureus - MRSA & GRSA • Norovirus • Salmonella enterica • Staphylococcus aureus • Klebsiella pneumonia • Staphylococcus epidermidis • Escherichia coli O157:H7 • Canine Parvovirus • Canine Distemper Virus • Feline Calicivirus, and Many More.

**WHERE TO USE AND WHY:** Hospitals • Medical Offices • Dental Offices • Clinics • Operating Rooms • Nurseries • Day Care Centers • Nursing Homes • Kennels • Veterinary Clinics • Zoos • Pet Shops

Cdiff™ Disinfectant Tablets are more effective, at lower doses, than Quaternary Ammonium Compounds, bleach, hydrogen peroxide, and peracetic acids. Germs cannot build up a resistance to Cdiff™ Disinfectant Tablets and the solution is not deactivated by organic matter or cloth as other disinfectants can be. Boasting a 2 year shelf life, Cdiff™ Disinfecting Tablets ship DOT non-hazardous, are small and convenient, and will help you reduce transport space, storage space, and wasteful packaging.
