

# Cdiff Disinfectant Tablets

Product # 160

*Kills C. diff in 4 minutes*

Cdiff Disinfectant Tablets are the convenient and easy way to kill C. diff and many more organisms in just 4 minutes. These powerful tablets utilize sodium troclosene as the active ingredient and are bleach free. Sodium troclosene is much more stable than sodium hypochlorite (bleach), and releases chlorine at a much slower rate which means that Cdiff Disinfectant Tablets produce a solution that maintains disinfecting power for 7 days, in a sealed container, and 24 hours in an open container vs. bleach solutions that become inactive after a day. With a pH of around 6.5 and an added detergent, Cdiff Disinfectant Tablets are the perfect disinfectant for virtually any surface, including floors, commonly found in hospitals, medical offices, dental offices, clinics, day care centers, nursing homes, veterinary clinics, and more.

## Use to Clean and Disinfect:

- Hospitals
- Nursing homes
- Medical & Dental clinics
- Operating rooms
- Day care centers
- Medical research facilities
- Animal life science labs
- Nurseries
- Veterinary clinics
- Vets, zoos and pet shops
- Kennels
- Cosmetic, pharmaceutical and medical device manufacturing facilities

## Effective Against Bacteria, Viruses and Fungus:

- Clostridium difficile
- Carbapenem resistant Klebsiella Pneumoniae
- Klebsiella pneumoniae
- Staphylococcus epidermidis
- Enterococcus faecalis (Vancomycin Resistant)
- Staphylococcus aureus (GRSA & MRSA)
- Acinetobacter baumannii
- Influenza H1N1
- Herpes Simplex Virus Type 1
- Salmonella enterica
- Hepatitis A & B Virus
- Trichophyton mentagrophytes
- Escherichia coli O157:H7
- Poliovirus type 1
- Pseudomonas aeruginosa
- HIV-1
- Respiratory syncytial virus
- Infectious Canine hepatitis
- Norovirus
- Canine parvovirus
- Canine Distemper virus
- Newcastle Disease Virus
- Pseudorabies virus
- And many more

## Features and Benefits

- A broad-spectrum disinfectant, virucide and mildewcide.
- Effective in both hot and cold water.
- Disinfects and protects against odor.
- 2 year shelf life
- Ships DOT non-hazardous

## Properties

Appearance.....	White tablet
Fragrance.....	Characteristic
Specific gravity.....	~ 1.0 (in water)
pH.....	~ 5.5

## Directions Complete directions on product label

**To Disinfect:** Add 2 – 6.55 gram tablets to 1 gallon of water. Contact time: 10 minutes.  
**For C difficile spores:** Add 8 – 6.55 gram tablets to 1 gallon of water. Contact time: 4 minutes.

## Authorizations

EPA Registered Product

## Active Ingredient

Sodium dichloro-s-triazinetriene.....

## Amount Active

48.21%

**Safety** Danger: Corrosive. Causes irreversible eye damage. Harmful if swallowed, inhaled, or absorbed through skin. Do not get in eyes, on skin, or clothing. Avoid breathing dust. Wear chemical-resistant gloves and safety glasses or face shield when making up solution. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.
