

 **NEXSTEP**
COMMERCIAL PRODUCTS
Exclusive Licensee of O-Cedar

Nexstep Commercial Products' Cash 'N Carry section highlights our ongoing commitment to this ever-growing segment. Our various cash 'n carry products feature O-Cedar Commercial...**the brand you know and trust**...and colorful, attention-grabbing packaging. Bilingual features, advantages, and benefits provide the product information your customers need. Self-hanging and shelf-friendly packaging includes UPC bar code for easy checkout. Here are a few of our Cash 'N Carry Solutions!

**MaxiPlus®
Microfiber Mops**
Remove over 50% more
bacteria than cotton mops
see page 19

Quick-Way™ Mop Kit
97163V MaxiClean Cut-End Mop
and 6516 Quick-Change™ Mopstick.
4-ply cotton/synthetic blend
cut-end yarn provides excellent
absorbency and durability

see page 31

**Microfiber Floor
Mop & Refill**
Attracts and holds dust/dirt with
natural electrostatic charge
see page 12

360 Degree Dusters
Great for cleaning hard-to-reach
areas with 360° of dust trapping
see page 102

**MaxiPlus®
Squeegee w/Handle**
18" floor squeegee with
54" steel handle
see page 91

**MaxiPlus®
Microfiber Cloths**
Remove 50% more bacteria
than traditional cloths
see page 14

MaxiClean® Eraser Scrubber
Has powerful micro-scrubbers
for the toughest stains. Chemical-
free; requires only water
see page 98

Corn Brooms
100% natural fiber
sweeps away both fine
and heavy debris
see page 104

**Large Angle
Broom**
PET flagged bristles sweep
the finest particles
see page 58

**MaxiPlus® Professional
Angle Broom, Flagged**
Solid block, meaning no chance of
separation from shroud
see page 55

Why Choose Nexstep Commercial Products?

60% of the products in this catalog are made in the USA. We remain committed to offering American-made products, producing items in our factories in Illinois and Ohio, and continuing to seek more domestic suppliers.

Flexibility

Many products we produce can be private labeled or customized. We are committed to working with our customers to make their products uniquely their own. Talk with your sales representative for more details about these great programs.

Satisfaction Guaranteed

Nexstep Commercial Products will replace or repair any defective product within a year of the purchase date. To report a defective product, please contact customer service at 800-252-7666.

How Are Nexstep Products Green?

Products are classified into one or more of the following categories:

Microfiber Materials

Microfiber - which employs split fiber construction - provides effective cleaning through its microscopic "hooks" and reduces the need to use stringent chemicals. Today's latest technology is Microfiber, which makes our environment healthier and safer.

Post-Industrial Waste

The vast majority of the yarn used in our wet mops is made from 100% post-industrial waste, making it completely biodegradable.

Recycled Resin

Our plastic products are comprised of virgin/recycled resin which conserves natural resources and diminishes waste going into landfills.

Material/Space Reduction

Through state-of-the-art package engineering, our cartons use the least amount of corrugated material in order to conserve our natural resources while providing superior product protection. For example...our Flat-Pak™ Mop Packaging reduces the size of a standard mop carton by 45% while providing outstanding product protection and saving valuable space.

Recycled Pulp

All of our cartons are made from 100% recycled pulp which reduces waste going into landfills and conserves natural resources.

Our Carton Size

Standard Carton Size

Microfiber is a very fine synthetic fiber composed of 80% polyester and 20% polyamide (nylon).

This creates a fiber that is 100 times finer than human hair. The dense construction creates a split microfiber that is positively charged and attracts negatively charged dust particles.

Tests have shown many advantages to using microfiber products:

- Using an O-Cedar Commercial® microfiber wet mopping pad removes over 95% of microorganisms compared to 65% when using a traditional loop-end mop.
- Reduces chemical consumption by up to 90% by using far less chemicals than required with traditional mops.
- Reduces workplace injuries because microfiber products require less heavy lifting and movement.
- Cleans more effectively, as microfiber dust mops remove up to 75% more dust and dirt than traditional cotton dust mops.
- Reaches into crevices that ordinary fibers simply pass over.
- Can be laundered up to 500 times and can withstand up to 200 degree water for bleach-free laundering.

All O-Cedar Commercial® Microfiber Pads have microfiber liners, preventing the bacteria and odor that can occur with sponge liners.

Microfiber Cleaning Station

Item #	Description	Case Pack	Case Wt. (Lbs.)	Case Cube	Case Dimensions (L x W x H)
950	Microfiber Cleaning Station	1 ea	210	7	38" x 21" x 14"
9501	Frame for Microfiber Display	1 ea	42	7	63" x 38" x 5"
9502	Shelves for Microfiber Display	1 ea	33	7	38" x 21" x 14"

- Eye-catching display
- Organizes all microfiber products in one place
- Generates impulse sales
- Makes selling microfiber products easier
- Wheels make the display easy to maneuver
- 96064-72, 96067-72 & 96068-72 cloths come in 12 packs of 6
- Station is 18.75" deep, 45" wide and 78.5" tall when assembled

6051

Mop Size Identified by Band Color

Construction

Loop-End Mops

Will not fray or ravel with use like cut-end disposable mops. Can be laundered for better effectiveness and clean appearance. With proper laundering, mop will last 8 to 10 times longer than a cut-end mop, ultimately making it a more economical choice.

Cut-End Mops

Economical for general purpose floor cleaning. Not launderable, so the product life is relatively short. Tends to "lint," lose strands and leave uneven gaps on floor surfaces.

Safeguard™ Mops

Cushioned shoulder prevents marring and scratching of baseboards and furniture. The steel plate with screw connector is attached to the headband by rivets. Provides superior cleaning with minimal effort due to more yarn being in contact with the floor.

Screw-On Mops

A plastic injection-molded cap that incorporates a metal threaded stud and accepts any standard screw-on handle. Designed for the mop to lay on the floor for more efficient mopping.

Headband

5" PVC coated mesh headband is secured to the mop with 6 rows of lock-stitching and back-tacked to properly secure headband to mop. The mesh headband offers greater durability and allows the yarn to dry thoroughly.

Tailband

A woven 1/2" tape sewn toward the bottom of the mop to secure the yarn and prevent tangling. Cleans 50% more floor per stroke and mops evenly without leaving gaps for faster mopping and lower labor cost. Standard on all loop-end mops; can be added to cut-end mops for an upcharge.

Anti-Microbial

An antimicrobial additive is locked into the yarn to inhibit the growth of bacteria, mold, mildew, and fungi that cause odors and stains and shorten product life.

Important Factors to Consider

Absorbency

The absorbency of a mop refers to its ability to pick up and hold liquid. Higher levels allow floors to dry faster, leading to greater productivity and worker safety. Microfiber, Rayon, and Cotton yarns have the highest absorbency.

Microfiber

Rayon

Cotton

Durability

The durability of a mop is a measure of how long it will perform before needing to be replaced. Microfiber, Synthetic Blend, and Cotton/Synthetic Blend mops are the most durable. Mops with antimicrobial fibers have greater durability because they inhibit the bacterial growth that causes mop odor, discoloration, and mildew that breaks down the fiber.

Microfiber

Synthetic Blend

Cotton/Synthetic Blend

Launderability

The launderability of a mop is based on the number of commercial washing and drying cycles it can withstand before the construction of the mop is degraded or the performance declines. Microfiber, Synthetic Blend, and Cotton/Synthetic Blend mops have the highest levels of launderability.

Microfiber

Synthetic Blend

Cotton/Synthetic Blend

Release

Release is the ability of a mop to disperse liquid onto the floor or during wringing. Higher levels allow faster and more complete wringing, as well as more efficient application of cleaning solutions on the floor. Microfiber, Rayon, and Cotton/Synthetic Blend yarns offer the best release of liquids.

Customize your wet mops for only 6 dozen per size!

Private Label

Customize wet mops by having your desired information printed in black on your tag. Your tag is sewn into the mop and then the mop is placed in a clear polybag - your “private labeled” mop.

- Add “-PL” to end of item number

Co-Brand

Customize wet mops by having your information printed in black on your tag. Your tag is sewn into mop and your “private labeled” mop is then placed in an O-Cedar Commercial attention-grabbing three-color polybag.

- Add “-PCB” to end of item number

Flat-Pak™ Packaging

Standard Carton Size

Our Carton Size

The vast majority of O-Cedar Commercial® mops come in Flat-Pak™ packaging. With Flat-Pak™, the mops are inserted in poly bags and then the air is removed from the poly bags, compressing the bags. The mops are then packaged in cartons that are 45% smaller than the cartons required in traditional packaging, saving valuable warehouse space. Flat-Pak™ mops retain their appearance, stack easily, and are more convenient to store and inventory. And Flat-Pak™ mops perform directly out of the package like traditional mops.

O-Cedar Commercial® mops not available in Flat-Pak™ packaging are all Safeguard™ Mops, Screw-On Mops, and MaxiPlus® Microfiber Mops.

Mop Size Identification Chart - By Band Color

Headband Color	Loop-End Size
Yellow	= Small
Green	= Medium
Red	= Large
Blue	= X-large

Sizing

Wet mop sizing is important to overall mopping efficiency. A wet mop should be sized both to the person who will be mopping and to the mop wringer with which it will be used. Most mops are sized according to the weight of the yarn they contain. Blended mops have made this sizing method confusing and obsolete because a lighter-weight blended mop can pick up more water than a heavier, all cotton mop. Therefore, loop-end blended mops are sized according to their pickup capability and the wringer size they will fit rather than yarn weight.

Microfiber

Attracts dust particles, removing up to 75% more dust and dirt than traditional cotton mops. Reaches into crevices that ordinary fibers pass over. Uses far less chemicals. Can be laundered up to 400 times.

Rayon

Contains no pepper trash or oils. Used primarily in special applications such as floor finishing. While offering extremely high water pickup, has relatively low water retention, making it less effective for general purpose mopping.

Synthetic Blend

Made from a combination of rayon, polyester, and acrylic fibers. Great for dispensing chemicals and liquids. Highly absorbent, picking up 3-4 times its weight; little "break-in" required. Will not mold or mildew. Less linting than many other blended fibers.

Cotton/Synthetic Blend

Combines high on-floor performance with long product life. Cotton fibers provide high water absorption and retention for effective floor drying. Synthetic fibers such as rayon afford maximum water pickup and require no "break-in." Other synthetic fibers such as polyester give increased strength and long product life.

Cotton

Effective and economical for general floor cleaning. High absorbency allows fast floor drying. Susceptible to mildew that can rot mop yarn and shorten product life. "Break-in" needed to remove natural oils and gain full absorbency of mop.

Nylon

The ultimate mop for applying floor finish. Tightly spun nylon yarn glides along the floor surface with less drag, greatly reducing worker fatigue while evenly distributing finish.

- Split microfiber provides unmatched cleaning performance attracting more dirt than traditional mops
- Floors dry faster with non-streaking microfiber and use substantially less cleaning agent than traditional mops
- Save more and waste less with this mop that can be laundered up to 400 times
- Rubberized 5" mesh headband allows for excessive laundering
- Tailband allows mop to spread evenly on the floor to cover more surface area and reduce labor

MaxiPlus® Full Cotton Mops

- Highest quality cotton yarn provides superior absorption
- 5" 100% vinyl-coated mesh headband provides added strength and durability
- Tailband allows mop to spread evenly on floor, covering more surface area in less time

Mop Bucket & Wringer
found on page 33

MaxiPlus® Mop Buckets & Wringers

- 36 quart bucket with divided well separates clean and dirty water for cleaner mopping
- Ergonomic sidepress wringer helps reduce back strain, and curved handle with grip allows you to easily steer the bucket
- Efficient sidepress wringer performs exactly like a downpress wringer for use with up to 32 oz. mops
- Large focused pour spout, easy lift handle with grip, and built-in handle on back of bucket assist in emptying
- Hook on wringer holds mopstick securely in place when not in use
- 3" gray non-marking swivel casters with bumpers provide excellent maneuverability on any surface
- Available in three colors to support color-coded systems

Natural Bristles

Horsehair

Produced from the tail and the mane, the soft horsehair comes in black and gray. Horsehair is used in a variety of brushes due to its durability. Should not be used on wet or oily surfaces.

Palmyra

Natural medium stiff fibers from the palmyra palm. This plant is native to India. Extremely durable, brown in color, has good bristle bend recovery, is economical and tough, and is an excellent choice for general sweeping. Can be used wet or dry.

Palmyra Stalk

Also a product of the palmyra palm. Palmyra stalks are very coarse, stiff, and strong. Commonly made into street brooms and used for cleaning the heaviest debris. Excellent for wet or dry use on pavement, concrete, and driveways.

Tampico

Soft to medium stiff fiber from the agave plant found in northern Mexico. It has a natural white color, but is frequently dyed or bleached. Durable and retains shape after continual use. Highly resistant to heat, alkalis, solvents, and acids. Has excellent water retention and will maintain stiffness while wet.

Synthetic Bristles

Nylon

A flexible, silky synthetic fiber that has a very high heat tolerance – up to 350° F. Very durable and excellent abrasion resistance. Will not stain, mat, discolor, or absorb odors. Excellent for food service.

Polyester

Excellent chemical resistance and bristle bend recovery. Very good abrasion resistance and tear/break strength. Sustains temperature up to 400° F.

Polypropylene

Available in many colors and weights for different applications. Resistant to acids, oils, fungi, and bacterial growth. Sustains temperatures up to 225° F. An excellent synthetic fiber for food service, and also perfect for industrial and commercial settings where sweeping or scrubbing takes place on wet or dry surfaces.

Polystyrene

This fiber is highly resistant to acid and detergents. Polystyrene has excellent flexibility and wear durability. Should not be used with sweeping compounds.

PVC (Polyvinyl Chloride)

Extremely durable synthetic. Ends are often flagged (Feather Tip™) to provide a soft brushing face. Oil and moisture resistant. Not for use with sweeping compounds.

Wire/Metal

Brass Wire

Rust resistant; provides a high degree of abrasion but is softer than stainless or carbon steel to prevent equipment damage. For use on ovens, griddles, and other metal equipment that is heavily soiled but cannot sustain heavy scratches.

Carbon Steel Wire

Provides a high degree of abrasion and wear resistance. Good bend recovery. Best choice for aggressively removing residue from metal parts or brick.

Stainless Steel

Provides a high degree of abrasion and wear resistance. Resists chemicals and rust. Excellent bend recovery. Best for aggressively removing residue from metal or other resilient materials.

*Carbon Steel Wire Brush
with Hardwood Block*

Blocks

Hardwood Blocks

Quality natural lacquered hardwood blocks provide classic, traditional durability and dependability. Two threaded or tapered holes provide long product life.

Structural Foam Blocks

These non-absorbent plastic blocks are made with fine synthetic cellular core surrounded by a solid skin. Lighter in weight, these blocks will not crack, split, warp, or house bacteria.

Fill Design

Staggered hole patterns prevent gaps in fill material for better performance. Dense fill leads to longer life. Flagged tips pick up fine dust and debris. Flared ends allow access to corners.

96444

Natural Bristles

Broomcorn

Broomcorn is actually a form of sorghum, grown specifically for its ability to trap fine dust particles. The fiber comes from the tassel of the stalk. Broomcorn lasts longer and sweeps better because each fiber is covered with hair-like follicles that trap and hold dirt particles. It is water-resistant and wears very well, making it the premium broom fiber. It is environmentally friendly because it grows in dry areas using only rain water. It is suitable for any floor surface.

Rattan

Similar to bamboo in appearance, rattan provides stiffness in a broom when placed inside with layers of quality broomcorn on the outside. Excellent for use in wet areas.

Yucca/Sotol

Corn/yucca blend brooms are constructed of broomcorn and yucca fibers from the yucca plant. Yucca is a member of the agave plant family, which thrives in warm, arid regions such as Mexico. The stiff fibers are used to make the broom's core, which is then wrapped with a layer of broomcorn. This makes a strong, economical broom suitable for sweeping on concrete. However, yucca has poor bristle bend recovery and has the tendency to break and shed. Does not pick up fine debris.

Synthetic Bristles

PET

Available in many colors, weights, and fiber diameters for different applications. Waterproof; dries quickly. Resistant to acids, oils, and bacterial growth. Ends are often flagged (Feather Tip™) to provide a soft brushing face that picks up fine dust particles. An excellent synthetic fiber for food service, and also perfect for industrial and commercial settings where sweeping or scrubbing take place on wet or dry surfaces.

PVC (Polyvinyl Chloride)

Extremely durable synthetic fiber. Ends are often flagged (Feather Tip™) to provide a soft brushing face. Oil and moisture resistant. Not for use with sweeping compounds.

Poly Corn

Made from polypropylene which gives good sweeping performance indoors or outdoors. The thicker fibers are long wearing, don't absorb water, and are resistant to most chemicals, detergents, insects, and mildew. Especially good in damp environments and can even be used on low-pile carpet.

Flagged Bristles (Feather Tip™)

Each synthetic filament end is mechanically split, forming a soft tapered tip that picks up fine dust and dirt particles.

Unflagged Bristles

Each synthetic filament end is un-split, preventing ends from matting together from grease and grime. Unflagged bristles excel on rough surface floors.

6LP74	#74 Style MaxiPlus® Heavy Duty Plastic Lug Set (3)	1 ea	1	0.17	10" x 15" x 2"	N/A

MaxiPlus® Plastic Riser

- Riser mounts under a steel, aluminum or plastic clutch plate giving you extra clearance between the top of the brush and the apron of a single brush floor buffer; allows you to use a larger brush and increase productivity
- Mounts over a 5" center hole

Wet Mop Customization

A minimum of 72 pieces is required for customization.

- To convert a wide band mop to a narrow band mop, add "-NB" to the item number and deduct \$.75 (each mop) from the List Price.
- To convert a narrow band mop to a wide band mop, add "-WB" to the item number and add \$.75 (each mop) to the List Price.
- To add a tailband to a mop, add "-BS" to item number and add \$2.80 (each mop) to the List Price.
- To convert any mop to "Screw On" style, add "-SO" to item number and add \$3.50 (each mop) to the List Price.
- To convert any mop to a smaller case pack, add "-6," "-4," or "-3," after the item number (to indicate case pack) and add to the List Price (each mop):

\$.50 per mop for a 3 Pack • \$.40 per mop for a 4 pack • \$.30 per mop for a 6 pack

OTHER CUSTOMIZATION

Corn Broom Cartons

Corn brooms are packed in bundles of 6. To order in cartons instead of bundles, add "CTN" to the item number and add \$2.75 (each broom) to the List Price. A minimum of 144 pieces is required.

Terms & Conditions

General:

- All orders are subject to approval by Nexstep Commercial Products.
- Prices are subject to change without notice.
- Prices charged will be the prices in effect at the time the order is placed.

Minimum Order/Freight Terms:

- Minimum order is \$500.00. Any order less than \$500.00 will be assessed a \$30.00 service charge, except for backorders.
- Minimum opening order for a new customer is \$1,200.00.
- East of Rockies, shipments of \$2,000.00 or more, FOB Origin/Freight Prepaid, via carrier of our selection within the 48 contiguous states. Under \$2,000.00, FOB Origin/Freight Collect.
- West of Rockies, shipments of \$2,600.00 or more, FOB Origin/Freight Prepaid, via carrier of our selection within the 48 contiguous states. Under \$2,600.00, FOB Origin/Freight Collect.
- For redistributors, shipments of \$3,500.00 or more, FOB Origin/Freight Prepaid, via carrier of our selection within the 48 contiguous states. Under \$3,500.00, FOB Origin/Freight Collect.
- Accessorial delivery and detention charges are the responsibility of the receiver.
- Claims for shortages or damages must be made to Nexstep Commercial Products within 72 hours from date of receipt of shipment. Any shortage must be signed and communicated to Nexstep Commercial Products' Customer Service Department.
- Credit memos expire after 180 days. Please specify credit memo number on remittance advice to apply.

Add-On Orders:

An add-on must be received within 36 hours of the original order to guarantee shipment together. If an add-on must be shipped separately, the customer will be responsible for the additional freight charges.

Non-Preferred Carrier:

Nexstep Commercial Products reserves the right to determine the most economical routing of all prepaid shipments. Nexstep Commercial Products will not pay for special service fees such as "sort and segregate" or "call for delivery appointment." Prepaid freight includes dock to dock shipping only. Call our Customer Service Dept. for quotes on services such as driver or lumper unload, sort & segregate, lift gate service, or prison/residential/inside deliveries, etc. Additionally Nexstep Commercial Products will not be liable for any additional charges that may be incurred by using a non-preferred carrier.

Credit:

To establish credit, call our Accounting Department at 937-322-5163 ext. 124 or print our Credit Application from website at www.ocedarcommercial.com and fax to 937-322-6826.

Payment Terms:

Net 30 days. Orders are invoiced the day they ship from our distribution center in Paxton, Illinois and payment is due within 30 days of the invoice date. Interest of 1.5% per month will be charged on any open balance exceeding 30 days.

Returned Goods Policy:

Merchandise will be accepted for credit only with prior approval from Nexstep Commercial Products. Authorized returns will only be accepted in unopened original cartons, freight prepaid by the customer, and will require a 20% restocking fee. Private labeled, discontinued, or customized merchandise cannot be returned for credit.

Private Label:

At Nexstep Commercial Products, wet mops may be customized with a minimum order of 6 dozen per type of mop. Private labeling may be available for other items. Please inquire with our Customer Service Dept.

Bids:

Nexstep Commercial Products reserves the right to provide bid pricing to only Authorized Nexstep Commercial Products Distributors. When placing subsequent orders, all Authorized Nexstep Commercial Products Distributors must use regular pricing. To receive rebate for bid, distributors must submit POD documentation and original bid number.

Credit Cards:

We accept Visa, MasterCard, and American Express. There is no convenience fee on any order paid by credit card at the time the order is placed. However, there is a 2.5% convenience fee on any order paid by credit card after the order has been shipped.

Warranty Statement:

Nexstep Commercial Products will replace or repair any defective product within a year of the purchase date. To report a defective product, please contact customer service at 800-252-7666. Nexstep Commercial Products may request a proof of purchase to arrange a repair or replacement. The warranty is void if a product suffers misuse, abuse, modification, or failure to follow instructions. The warranty does not apply to nondurable goods.
