FOOD SAFETY
HAND HYGIENE PROGRAM

Clean Hands for Healthier Food

Reduce germs in customer service areas

Prepare and serve food with clean hands

Make hand hygiene a priority in restrooms

FOOD SAFETY HAND HYGIENE PROGRAM

Proper handwashing and hand sanitizing are important elements to food safety! NSF Registered, E-Category Hand Care Products from Health Guard take the worry out of food-related illnesses. These products are ideal for reducing the risk of cross-contamination in employee work areas and customer service areas.

Food facilities that practice good hygiene in every area build a solid reputation for quality. Clean restaurants and grocery stores attract customers and drive repeat business. Health Guard can help you meet FDA Food Code requirements and achieve success!

E2 Hand Sanitizer/Cleaners reduce the risk of food borne illnesses

HEALTH GUARD HAS HAND CARE PRODUCTS FOR EVERY E-CATEGORY

- A full line of E1 Hand Washes, E2 Hand Sanitizer Cleaners, E3 Hand Sanitizers and E4 Hand Washes
- Ideal for food preparation, handling and processing
- Meet guidelines for use in USDA and US federally inspected food processing facilities
- Color-coded labels are designed to enhance your HACCP program

Many of our E1, E2, E3 and E4 Products are NSF Registered and labeled with the NSF logo. (see back cover for specific product registrations)

E1 Hand Wash

Effective hand cleaner that removes fats, oils, and other tough food soils

Must be rinsed off with potable water

May contain FDA approved colors and fragrances that meet limits for residual odor left on hands after rinsing

Ideal for food processing and preparation areas

E2 Hand Sanitizer/Cleaner

Combination Hand Wash and Sanitizer that removes fat, oils, and other tough food soils

Exceeds the 50 ppm chlorine equivalency standard for sanitizers

FDA approved active ingredient is effective against common food borne organisms that can cause illness

Must be rinsed off with potable water

May contain FDA approved colors and fragrances that meet limits for residual odor left on hands after rinsing

Ideal for food processing and preparation areas

E3 Hand Sanitizer

No-rinse hand sanitizer

Includes alcohol-based and non-alcohol sanitizers

Exceeds the 50 ppm chlorine equivalency standard for sanitizers

FDA approved active ingredient kills 99.9% or more of common germs that can cause illness

May contain FDA approved colors and fragrances that meet limits for residual odor left on hands after rinsing

Ideal for non-food areas and food processing and preparation areas (after washing and rinsing hands)

E4 Hand Wash

Effective hand wash that removes medium soils

May contain dyes and fragrances

Cannot be used in food processing or preparation areas

May contain FDA approved active ingredient that kills common germs that can cause illness

Ideal for restrooms, dressing rooms and locker rooms outside the food area

EASY PRODUCT IDENTIFICATION

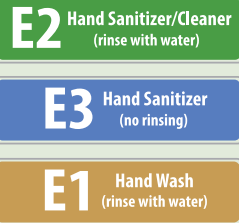

Package Labels

To help workers and inspectors identify products, "E2" or "E3" ratings are shown on color-coded product labels.

Dispenser Labels

Supplemental 2" x 0.5" color-coded E1, E2 and E3 category labels are available (no charge) for you to place on dispensers.
