PERFORMANCE.  
SUPERIOR  
VALUE.**

*Heavy Duty Hand Cleaners,  
Hand Wipes & Hand Creams*

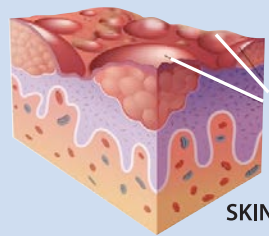

# Kutol® Pro Industrial Skin Care Program

In industrial environments your hard workers' hands can take a beating. They can be exposed to many tough, industrial soils and other chemicals while on the job. It's important to help protect and prepare your employees from these conditions by providing personal protective equipment and skin care solutions to help keep your workers' skin clean and healthy. That's why Kutol offers a 3-Step Skin Care Program to help prepare, clean and restore dirty dry hands.

## DERMATITIS

Inflamed Skin Surface

SKIN CUT-AWAY

## Worker Skin Health

Occupational Dermatitis, the most prevalent industrial skin disease, is the inflammation of the skin caused by contact with damaging substances such as solvents, chemicals, irritants or sensitizers (allergens). Soreness, redness, and intense itching occur. In work environments where there is risk of exposure, proper skin care products should be used.

Workers should use protective gloves when necessary and wash their hands regularly, including before and after wearing gloves. Special hand creams, applied before and after work, help maintain proper skin condition. **The combination of cleansing hands and applying hand creams helps reduce the risk of occupational dermatitis.**

## Kutol® Pro 3-Step Skin Care Program

### STEP 1 PREPARE

Use **Kutol® Pro BEFORE WORK Hand Cream** at the beginning of the day to help repel and make it easier to wash away industrial soils from the skin.

### STEP 2 CLEAN

Use a **Kutol® Pro Heavy Duty Hand Cleaner or Hand Wipe** to scrub away tough industrial soils throughout the workday.

**NEW! Hand Wipes ready to use, no water needed**

**NEW! Citra-Soft Waterless without scrubbers, no water needed**

### STEP 3 RESTORE

Use **Kutol® Pro AFTER WORK Hand Cream** at the end of the day to help soothe, moisturize and restore dry hands.

## Tough Hand Cleaners for Tough Environments!

Kutol® Pro Heavy Duty Hand Cleaners were formulated to outperform the competition in removing the toughest industrial soils including grease, oil, paint, ink, lubricants, automotive fluids and adhesives, all while having low VOCs. Our wide selection of scrubbers, colors and fragrances means there is a Kutol® Pro product for any industrial application!

## Kutol® Pro Dispensing Systems

Kutol offers a wide selection of heavy duty hand cleaners in a variety of wall mount and portable dispensing options.

### DuraView® Heavy Duty Wall Mount System

#### IMPROVED! 2 Liter & 4 Liter Cartridge

- New HDPE (High Density Polyethylene) cartridge is extremely durable
- Reduces damage during shipment and withstands tough industrial abuse
- Uses the same universal dispenser as the old PVC cartridge
- Translucent cartridge allows you to see the color and soap level more easily
- The #2 IRC code cartridge is easier to recycle than the old #3 PVC cartridge

**NEW! 22oz Portable Squeeze Bottle**

## The Science Behind Heavy Duty Hand Cleaners

**Solvents** ...reduce the surface tension of water, disperse soils, and make unwanted particles easy to remove.

**Surfactants** ...help water spread out and attach to dirt molecules, enabling lifting and removal of dirt.

**Natural Scrubbers**...naturally-derived pumice, walnut shells and perlite, reach tiny places and scrub away tough soils.

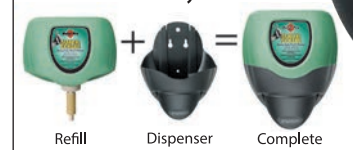

**Synthetic scrubbers** ...wax-based paraffin is biodegradable and performs as well as plastic scrubbers.

**Low VOCs** ...all of our hand cleaners are under the 1% VOC (Volatile Organic Compound) limit, thus evaporate easily and are better for the environment.

**Kutol® Pro hand cleaners have been precision-formulated with just the right blend of dirt removers!**

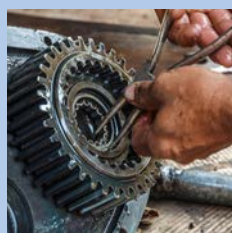

DuraView® - Easy-to-Install

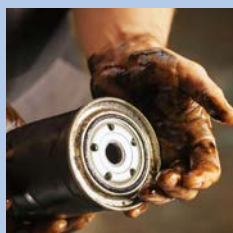

### Other Dispensing Options

All of our Heavy Duty Hand Cleaners are available in Flat Top Gallons. Many formulas are also available in convenient Pump Gallons, portable 22 oz Bottles and 3.5 L & 8 L Large Capacity refills. See back for complete list.
