Ultimate Wax Removal, Less Loading, Longer Wear

For operators that demand ultimate performance, here is a patent pending, proven technology to give you up to 5X faster finish removal than a standard black strip pad.

The ACS Turbostrip™ Segmented Rotary Strip Pad features 24 polygonal segments with overlapped angular edges that bite into floor wax aggressively. Independent lab tests show that the ACS Turbostrip™ Segmented Rotary Strip Pad achieves up to 5X faster wax removal than standard black strip pads depending upon the number of coats to be removed. ACS Turbostrip™ Segmented Rotary Strip Pad dramatically reduces excess floor wax on strip pads. The pad life increases while the floor stripping work is completed faster.
