# The matting essentials you need!

## Reduce Pain & Improve Productivity!

**WORKSTATIONS**

Loss of movement due to standing, causes low blood flow to the legs and feet and can result in muscular inflammation and discomfort. Insufficient blood flow accelerates the onset of fatigue and can cause pain in the muscles of the legs, back, and neck (these are the muscles used to maintain an upright position).

Choose Zedlan™ foam mats to energize your workforce! Zedlan™ foam mats relieve pressure and stress on your spine, muscles, and joints when standing and chairs are not an option.
