

2019 PROFESSIONAL PRODUCTS

**Toter**<sup>®</sup>  
Built for Extremes<sup>®</sup>

# Toter: A Legacy of Durability and Innovation

- Toter® introduced an automated cart system for curbside garbage collection in the 1960s and has established itself as the top-selling cart brand for the curbside collection of waste, recycling, and organics
- In 2007, Toter joined the Wastequip® family, the leading North American manufacturer of waste handling equipment
- Today, Toter manufactures a variety of waste and recycling carts and containers for industrial, commercial and institutional applications
- Toter Professional products are available through a network of dealers and distributors and online at [BuyToter.com](http://BuyToter.com)

# Built for Extremes® is More than a Tagline

- Toter's engineers developed a revolutionary breakthrough in rotational molding known as Advanced Rotational Molding™ to create the toughest waste and recycling containers that outlast the competition
- Advanced Rotational Molding™ eliminates built-in stress, weakness and brittleness associated with injection molded products

## Advantages of Rotational Molding

- Superior toughness and durability
- High impact resistance
- Single-piece product design – no seams
- Consistent wall thickness
- Stress-free, zero-pressure product
- Unique design and structural capabilities like Rugged Rim, sealed stop bar journals, and granite finish
- Corrosion- and chemical-resistant
- Custom colors
- UV stable

# Designed Smarter. Built Stronger

## The Advanced Rotational Molding™ Process

**Step 1:** Molds are filled with a pre-measured amount of plastic micro-pellets, and then moved into an oven where a microprocessor controls the temperature, blower velocity, bi-axial rotation and molding cycle

**Step 2:** The oven melts the plastic while the machine rotates, coating the inside of the mold. The process requires no high-pressure hydraulic equipment to fill the mold, so no stress is introduced during the molding cycle, unlike injection-molded products

**Step 3:** The mold is then transferred to the cooling chamber to achieve its maximum impact strength and physical properties

**Step 4:** The cart is removed from the mold to be trimmed, imprinted and assembled

# Make the green choice the easy choice

## Toter carts contribute to sustainability:

### Reduced material consumption

- Compared to other carts, each 96-gallon Toter cart is manufactured with up to five fewer pounds of plastic

### Longest service life

- Toter offers a 15- to 20+ year active service life, compared to a 10-year service life for injection-molded carts. Longer service life essentially eliminates early cart replacement, reducing material consumption by at least 50%

### Recycled content

- Toter carts are manufactured with up to 50% recycled content

### Recyclable

- Toter carts are fully recyclable. In fact, Toter recycles used carts into new carts every single day

**SUSTAINABILITY**

**Toter**  
Extremes

# Toter's 3-step Solution

By eliminating manual lifting and dumping, you can help reduce workplace injuries and the associated costs

## 1. Collect - Load your cart

## 2. Transport - Mechanical dump & towing

## 3. Dispose - Automated lift

Toter helps address challenges with any facility with our complete 3-step solution for collecting, transporting and disposing of waste safely and efficiently. Toter offers:

- User-friendly containers to efficiently collect waste
- Automated collection to eliminate potential injury & improve productivity
- Effective, sustainable, collection, transportation and disposal system
- Reduced container maintenance costs

BE AWARE: The above depictions are for illustrative purposes only and are not substitutes for or recommendations of safe workplace practices. Any piece of equipment can be dangerous, even deadly, if not used properly. Become familiar with the proper use of these Toter® products and the safe operation of any accessories or related equipment and vehicles. Always inspect any piece of equipment before using it and DO NOT USE if anything cannot be safely corrected as severe injury could result. Common sense, awareness of surroundings, and caution for the circumstances are best known by the operator – be alert to what you are doing!

# The Toter Effect: Our Value Proposition

## Professional-Grade Solutions for a Variety of Applications

Toter products are designed to handle the toughest waste, recycling and storage needs in a variety of industrial, commercial and institutional settings. From containers and carts to lifters and tilt carts, we offer end-to-end solutions designed to safely and efficiently collect, transport and dispose of waste and recyclables

## Built for Extremes®

Toter products have earned a reputation for unsurpassed toughness and durability in the face of harsh industrial use. Our products are built to last and manufactured using our Advanced Rotational Molding™ process, which results in stronger, more durable products than those from injection-molded manufacturers

## Custom Solutions for Unique Environments

Every facility has a unique waste stream and volume, staffing, layout, footprint, flow, environmental requirements and storage limitations. Unlike our competitors who sell off-the-shelf products, we specialize in consulting with our customers to create customized waste management solutions

# Products

# Toter Pro Products Overview

## Collect

- Round cans
- Slimlines
- Litter containers
- Front end load containers (FELs)
- Organics containers

## Transport

- Two wheel carts
- Medical waste carts
- Document management carts
- Mobile & cube trucks
- Tilt trucks

## Dispose

- Cart lifters

**Toter®**  
Built for Extremes®

# Round Cans

COLLECT

Toter's commercial grade, large capacity round cans are manufactured using our Advanced Rotational Molding process for durability and long service life

Rugged Rim® provides extra strength in critical wear areas

Fluted inner walls for easy removal of plastic liners

Dolly adapter kit

Lids with can cut outs available to support recycling programs

Weighted base can be filled with sand, which adds up to 25 lbs. of additional weight for increased strength

**Sizes:** 32, 44 & 55 gallons

**Standard colors:** Black, Blue, Blackstone, Dray Gray Granite, Brown, Greenstone

**Toter®**  
Built for Extremes®

# Tilt Trucks

Toter heavy-duty mobile, tilt and cube trucks are perfect for collecting and transporting larger volumes of waste

Rugged Rim® and durable rotational molded construction provide durability and long service life

Tapered wall design directs material flow

Recessed gripping areas make them easy to maneuver the heaviest loads

Powder-coated frames reduce corrosion, prevent flaking, and ensure long service life

High load ratings for safe handling of heavy loads (up to 2,000 lbs. depending on model)

Compatible with automated lift systems

Can be hitched together for easy transport (depending on model)

Shipped fully assembled, ready to use

**Capacities:** 1/2, 3/4, 1 and 1 1/2 cu. yd. sizes

**Colors:** Black, Blue, Graystone, Brown

**Options:** Solid, split and hinged lid options

# Two Wheel Carts

Toter two wheel carts are perfect for collecting and moving waste and recycling in industrial, commercial and institutional environments.

Ideal handle height and best-in-class ergonomics provide easier maneuverability

Rugged wheels make maneuvering a breeze – even when completely full

Heavy duty wear strip to withstand repeated dragging

Rugged Rim® adds rigidity and reinforced material in critical wear areas, extending the life of the cart

Can cut out, can collar, paper slot lid options to support recycling programs

Variety of custom graphics available for lid and body

Variety of lid locking mechanisms

**Sizes:** 32, 48, 64 & 96 gallons

**Colors:** Black, Blue, Brownstone, Graystone, Blackstone, Brown, Greenstone

**Toter®**  
Built for Extremes®

# Slimlines

COLLECT

Toter's Slimline containers provide effective, sustainable waste collection for commercial and institutional environments. They are extremely rugged and built to last, and they're available in a wide range of shapes and colors to complement any setting

Variety of lid options including open top, swing door, can cutout, document slot

Tapered design for easy removal of trash can liners

Self-closing swing lid minimizes odors

In-mold bottom handle for easy lifting and dumping

Rugged Rim construction for increased durability

Bag holder straps keep liners securely in place

**Sizes:** 21, 25, 35 and 50 gallons

**Shapes:** rectangular, half round, square

**Standard colors:** blue, gray black; Pantone color matching available upon request

**Toter®**  
Built for Extremes®

# Litter Containers

COLLECT

Toter's decorative litter containers provide effective, sustainable waste collection for industrial, commercial, and institutional environments

Bag holder straps for no slip trash bags

Double wall construction for increased strength and durability

Weighted base and bolt down option deters theft and improve stability

Wide opening hinged lid speeds collection

Designed for fully-automated or manual collection

Available options: rigid liners, recycling cut-outs, custom graphics

Shipped fully assembled, ready to use

**Sizes:** 48 & 64 gallon

**Standard colors:** Blue, Black, Dark Green, Bluestone, Sandstone, Dark Gray Granite, Navy Granite, Graystone, Blackstone

**Toter®**  
Built for Extremes®

# Plastic FELs

COLLECT

Toter FELs are durable and virtually maintenance-free. These containers are perfect where noise is a concern or in high-moisture areas. Plastic FELs are a great choice for collecting recyclables and organic

**Sizes:** 1, 2, 3 & 4 yd. sizes

**Options:** Casters

**Toter®**  
Built for Extremes®

# Organics

COLLECT

Toter offers a line of organics containers design to safely contain and transport heavy, wet organic waste. Products include two wheel and caster carts as well as front end load containers

## Sizes:

- Carts: 32, 48 & 64 gallons
- FELs: 1, 2 & 3 cu yd.

# Medical Waste Carts

COLLECT

Toter's latching medical waste carts are designed specifically for the healthcare industry, and provide a safe, secure method for collecting, moving and disposing of regulated medical waste

Locking lid prevents unauthorized access and keeps medical waste securely contained

Rotationally molded body and lid provide superior strength, durability and security

Carts can be hitched together for easy transport

High load ratings for safe handling of heavy loads

Carts ship fully assembled and ready to use

Meets all ANSI standards for lifter compatibility and safety

**Sizes:** 64 and 96 gallons

**Options:** caster or two wheel versions, graphics

**Toter®**  
Built for Extremes®

# Document Management Carts

Toter's document management carts are designed specifically for protecting sensitive, private and confidential documents from misuse, identity theft, and loss

Carts can help businesses comply with federal and state laws like the Gramm-Leach-Bliley Act, NARA (National Archives and Records Administration) and Health Insurance Portability and Accountability Act (HIPPA), among others, that require proper handling and disposal of sensitive information

**COLLECT**

Rotationally molded for superior strength and durability

Available in caster or two wheel configurations

Locking lid keeps confidential documents securely contained

Carts can be hitched together for easy transport

Compatible with on-site mobile shredding trucks

High load ratings for safe handling of heavy loads

Meets all ANSI standards for lifter compatibility and safety

Ships fully assembled, ready to use

# Mobile & Cube Trucks

Toter heavy-duty mobile, tilt and cube trucks are perfect for collecting and transporting larger volumes of waste. Rugged Rim® technology and durable rotationally molded construction means they're built to last

High load ratings for safe handling of heavy loads (up to 2,000 lbs.)\*

Compatible with automated lift systems

Can be hitched together for easy transport\*

Shipped fully assembled, ready to use

**Capacities:** 1/2, 3/4, 1 and 1 1/2 cu. yd. sizes

**Options:** Solid, split and hinged lid options

\* Depending on model

# Cart Lifters

Dispose

Lifters are designed to save time, reduce costs, and protect workers from back and other injuries by eliminating the need to lift heavy carts

Models without chutes available for food and medical waste ensure no material comes into contact with the lifter or ends up on the floor

Actuators feature high quality, longer lasting coated spline shaft ends

Non-movable lock hooks are designed to protect stop bars on the carts

Durable all-steel construction

**Models:** stationary, mobile, mounted

**NOTE:** All lifters are made to meet customer requirements
