

# Pro-Series Classic® Disposable Towels Play a Critical Role in Sanitizing and Disinfecting Surfaces

Designed as a reliable and consistent tool for critical cleaning, Classic® towels are engineered strong to deliver cloth-like cleaning performance with the cleanliness of disposables.

Classic towels are thick, highly absorbent and right-sized to distribute sanitizers and disinfectants over large areas allowing for thorough surface coverage and proper dwell time. They may be effectively used with both bucket and spray bottle systems, and do not deplete quat solutions like cotton and microfiber towels.

Choose Classic towels and experience the peace of mind that comes with deploying a clean, fresh towel for every new application and disposing of it when the task is done.

## Satisfied customers include:

- ✓ Institutional and healthcare facilities
- ✓ Food processing plants
- ✓ Transportation systems
- ✓ Hospitality venues
- ✓ Foodservice establishments
- ✓ General facility maintenance
