

Pro-Series Classic® Disposable Towels Play a Critical Role in Cleaning, Sanitizing and Disinfecting Surfaces

Designed as a reliable and consistent tool for critical cleaning, Classic® towels are engineered strong to deliver top performance and help reduce the risk of cross-contamination.

Classic disposable towels are available in several sizes and formats to accommodate a wide variety of task work. Made from bulky, high performance apertured material these towels quickly pickup debris and easily rinse out after surface cleaning.

Use your preferred chemical with confidence because Classic towels are compatible with all commonly used sanitizers and

disinfectants. Whether used with dip & wipe open bucket methods or soak & wipe refillable bucket systems, these high performance towels readily charge and thoroughly release solution without reducing efficacy. Classic towels are also an excellent option for sanitizing and disinfecting hard non-porous surfaces in spray & wipe procedures.

When safety is a priority, choose Classic towels and experience the peace of mind that comes with deploying a clean, fresh towel for every new application and disposing of it when the task is done.
