

# FRONT LINE SOLUTIONS

**SURFACE  
DISINFECTANT  
WIPE**

Portable Surface Disinfecting Power  
Uniquely Designed to Keep Front Line  
Workers Safe **On-The-Go**

**When the demands of the job require moving from place to place, lugging around bulky containers of disinfectant wipes isn't practical.**

PRO-SERIES Disinfectant Wipe single packs are the ideal portable solution for front line workers who encounter the daily risk of invisible pathogens in unfamiliar locations.

Take control of personal safety with individually packaged PRO-SERIES® Disinfectant Wipes, which are designed to clean, sanitize, and disinfect hard non-porous surfaces. These alcohol- and bleach-free wipes are included on EPA List N: disinfectants for use against SARS-CoV-2 (COVID-19).

Packaged in durable, high-barrier pouches, these convenient single packs are designed to withstand the most demanding environments. Each pack contains a super strong, super-sized wipe that can be used to thoroughly disinfect large surface areas of concern.

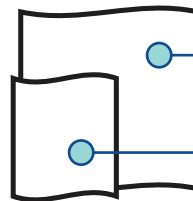

Preparedness is key when the job site is always changing. Give front line workers the confidence to tackle field risk and safely perform their work by adding individual PRO-SERIES Disinfectant Wipes to first aid kits, go bags and vehicles, or making 25-count dispenser boxes easily accessible for grab-and-go situations.

MDI is a WBENC-certified WBE and we proudly make the PRO-SERIES line of critical cleaning and disinfecting wipes at our US-based, EPA-registered, state-of-the-art manufacturing facility under an ISO 9001:2015 certified Quality Management System.
