

INNOVATIVE PACKAGING SOLUTIONS

PERF-PAK™ DISPENSING POLY PACKS

Perf-Pak™ dispensing poly packs are available exclusively from MDI. This innovative packaging with unique perforated opening allows for one-at-a-time dispensing and ensures unused wipers stay clean and protected.

Each Perf-Pak is individually labeled with lot number and bar code for inventory control at the unit level. These features are ideal for industrial vending systems that promote productivity, trace consumption and reduce

inventory and administrative costs.

Perf-Paks fit neatly into master cartons that are now more compact. Like MDI's bundling of rolls, totes and pop-up boxes, this format reduces corrugated waste, improves shipping efficiency and requires less storage space.

We are The Wiper Specialists® – committed to ongoing innovation and industry-leading solutions.
