

Facility Maintenance: What's the Right Wiper for the Job?

METAL FABRICATION

PRO-TOWEL® Heavy Duty

Heavy duty towel for rag and shop towel replacement, wiping up metal shavings etc. Two-Pak dispenser for fewer change outs.

REPAIR SHOP

THE CHAMP®

Thick, absorbent wipes great for cleaning up grease and oil spills. Tote box with sturdy handle to carry it with you and keep wipes clean.

PRODUCTION FLOOR

SUPER RAG®

Virtually lint-free, solvent resistant towels for precision cleaning of tools, parts and work stations. Poly bagged to keep wipes clean.

GLASS

ADVANTAGE® Scrim

Low-lint reinforced wipes clean glass surfaces without streaking. Convenient Pop-up box dispenses one-at-a-time.

GENERAL CLEANUP

CHAMPION® Select

Absorbent all-purpose wipes with soft hand feel – great for wiping hands and face. High capacity Jumbo Roll can be dispensed from portable floor stand.

OFFICE

CLASSIC® Dust Cloths

Efficient, effective dust control. Treated dust cloths attract and retain dust without using sprays.

Wiper Tip #1:
Using the right wiper and dispensing method for the task increases productivity and reduces consumption.

CLEANROOM

PRISTINE® Critical Environment

Critical environment wipers – double bagged, low particulate and ISO Class 3-7 compliant.

FEEDER

CLASSIC® Foodservice Towels

Reusable, cloth-like towels designed to collect debris and easily rinse clean.

Wipers are essential to maintaining the look and cleanliness of every facility. At MDI, *The Wiper Specialists*® will help you assess wiper opportunities, select a product lineup and make strategic end-user calls in order to grow your wiper business profitably.
