

PRODUCT FEATURES

F-MATIC GelAir Urinal Screens deodorize urinals for 30 days, helping to eliminate one of the major sources of odors in many restrooms. Its shape conforms to the urinal floor to intercept debris and prevent associated plumbing costs, and tall posts eliminate splash back. GelAir Urinal Screens work in both wet and dry urinals. Our microtube technology allows more opening when in contact with urine, releasing a stronger fragrance from the warmth generated with the plastic. Comes with an antibacterial formula that fights against germs.

EFFECTIVE FOR 30 DAYS

Permeated with our most popular premium F-MATIC fragrances, GelAir products utilize enzymes to continuously fight odors for up to 30 days. Resistant to high temperatures. Effective in environments up to 131°F. Prevents passages of debris such as gum, tooth picks, cigarette butts from passing through the urinal.

FULLY COMPLIANT

The GelAir Urinal Screen is fully recyclable. It's VOC-compliant in all 50 states and contains no CFCs or ozone-depleting substances. Using GelAir Urinal Screens to freshen your space is a great way to keep batteries and toxic chemicals out of landfills and waterways. Perfect for LEED-certified buildings or zero-waste facilities.

PROMOTE YOUR BUSINESS

This individually packaged urinal screen may be private labeled for your company at a low cost and with manageable minimums.

COORDINATING FRAGRANCES

GelAir Urinal Screens are the most powerful fragrance urinal screen on the market, and are available in eight fresh fragrances to match some of our most popular Twist passive air freshener refills. Coordinate your restroom fragrances with GelAir Toilet Bowl Clips and Air Tags too!
