

# Wipers Play a Critical Role in Workplace Quality and Safety

Task-engineered PRO-SERIES® wipers are designed for high-quality performance in environments where protecting people and work processes is paramount.

Did you know that, even after laundering, rental shop towels can contain lead and other heavy metals that could put workers at risk for overexposure to these potentially toxic contaminants?<sup>1</sup> They can also be left with undetected residue and foreign object debris (FOD) that could compromise product quality and employee safety. PRO-SERIES® engineered disposable wipers are a reliable and consistent alternative to help protect your people and processes from these avoidable uncertainties.

*Wiper Tip #4:  
Choosing professional grade wipers engineered for the task at hand helps to maintain employee health, protect product quality, minimize downtime, increase efficiency and reduce waste.*

## HEAVY DUTY JOBS

### PRO-TOWEL® HEAVY DUTY

Our heaviest towels are manufactured extra thick and bulky to increase absorption and extend their useful life. Fewer wipers per task means less waste generated. A Two-Pak™ box of PRO-TOWELS can replace a 25 pound box of rags. That means less storage space required and a fresh clean wipe for every application. When it comes to performance, versatility, reduced waste and lower cost, PRO-TOWELS outperform rags every time.

Two-Pak boxes\* dispense one-at-a-time, have convenient carry handles and are high capacity for fewer change outs.

*\*In addition to the items shown, a complete lineup of product colors and packaging options are available.*

## PRECISION CLEANING

### SUPER RAG®

Solvent-resistant, durable SUPER RAG towels are designed to hold up when applying chemicals such as degreasers, rust removers and general cleaners. Cloth-like features make them reusable, strong wet or dry, and highly absorbent. Made without binders or contaminants, SUPER RAG towels are virtually lint-free and won't leave particles behind on critical parts and machinery.

Single-Pak pop-up boxes\* are compact, portable and dispense one-at-a-time.

## GENERAL CLEANUP

### THE CHAMP®

Great for wiping away grease and oil buildup on tools and equipment. THE CHAMP wipers are so absorbent they clean up spills with just one wipe. These all-purpose wipes are soft and safe for contact with hands and face.

Center-pull Tote-Paks\* have sturdy carry handles and dispense one-at-a-time.
