

1000 mL No Touch Dispensing System

9961BLK Black

9960GRA Dove Gray

Top-dispensing in an automatic dispenser *Less waste when dispensed, no leaking at the valve*

The EZ Foam® No Touch is activated from the upper part of the dispenser, which lets users see the amount of product being dispensed and reduces waste caused by over-dispensing. And, by placing the valve at the top rather than the bottom of the dispenser, the risk of leaking at the valve is eliminated.

EZ Foam® No Touch also offers these advantages:

- Wide variety of Foam Hand Soaps and Hand Sanitizers
- Dispenses quickly when hand is placed under the sensor
- Uses 6 AA batteries (included) – no tools needed to change
- LED indicator lights up blue when dispensing and red when batteries are low
- Secured keyed locking option included
- Durable ABS plastic housing
- Large view window with product identification label
- Refill labels are in English, French and Spanish
- Easy to install and maintain

Keyed locking option

Inside view

6 AA batteries (included)

Multilingual labeling

*All Hand Soaps, Hand Sanitizers and Hair & Body products are
Manufactured in the USA in our LEED® Silver certified facility*
